"We do not want riches, but we want to train our children right. Riches would do us no good. We could not take them with us to the other world. We do not want riches, we want peace and love."

-- Red Cloud, OGLALA LAKOTA

The Elders say that what is important is peace and love. To have material things is okay, but if not, that's okay too. To have peace and love is more important than anything material. Our children will see the value of peace and love only if adults show they are a priority. Too often we think we can offer material things and they will replace the time spent with our children. But the most important way to give our children peace and love is to spend time with them.

My Creator, give me Your peace and love today.

Opportunity for Training: Attention!!!

The tribal government recently created a partnership with Occidental Chemical Corporation in Ludington, Michigan to identify those Tribal members that may be seeking current opportunities and up to 40 new positions by the year 2014 in the Maintenance profession with welding and electrical backgrounds.

We will be working closely with workforce development to identify those parties who are interested in obtaining the required training and schooling to get into their apprenticeship programs and other training in welding and electrical through schools such as West Shore Community College and other certification institutions.

If you know of anybody interested in pursuing this career opportunity or who may be qualified for the current position, please forward their resume and information to our HR department or Dave Hawley in workforce development. If any individual needs more information or needs help in formatting a resume, our Workforce Development department will assist in that process.
